DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 3 are rejected under 35 U.S.C. 102(a) as being anticipated by Boyer (US 6 647 947). Boyer discloses a separate air intake throttles including at least one throttle for each cylinder group to be selectively deactivated and at least throttle one for each cylinder group intended to remain activated, and smoothly transfer engine torque load from the cylinder group to be deactivated to a cylinder group to remain activated.

Allowable Subject Matter

Claims 2 and 4-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 8-10 are allowed.
